

Dear Doctor/Pharmacy,

PLEASE DISTRIBUTE TO ALL MEMBERS OF YOUR GROUP

NOTE: a new product from Sunshine Vitamins: "Just D" infant vitamin drops.

You are probably aware that the CDC and the American Academy of Pediatrics have recently recommended that all nursing infants should take 200 to 400 units of Vitamin D daily to prevent rickets and "pre" rickets (low vitamin D levels currently found in over 30% of nursing infants). This advisory comes because Vitamin D (the sunshine vitamin) is found only minimally in mother's milk and because of skin damage and potential skin cancers that occur from giving daily "sun baths". A vitamin D supplement is recommended, but no single entity vitamin D drop has been available. **UNTIL NOW!!**

Introducing "Just D" vitamin D supplement infant drops.

To our knowledge, we are the only manufacturer of a liquid vitamin supplement that contains only vitamin D. The advantages over A-D-C drops include:

1. Cheaper -- about half the cost.
2. MUCH better tasting (actually, almost no taste at all), and no after-taste typical of glycerin-based liquid vitamins such as "TRI-VI-SOL™"
3. No shaking required, as with some liquid vitamins.

Typical A-D-C vitamin drops are more expensive (about \$8 to \$10 for a 50 day supply), and often much of what is given is spit up because of the bad taste. In some communities these drops are also hard to find at local pharmacies. But why not give just a single entity supplement, "Just D" infant drops, since the new recommendation from the CDC doesn't even advise giving vitamins A or C?

Now there is no need to give baby any unnecessary Vitamins. Economical and good tasting "Just D" is what the nursing mother wants, and is what baby needs.

If you would like to either buy "JUST D" (to sell or give) or would like to have us contact a close-by pharmacy to stock "Just D" vitamin D for your patient's availability, or would like some 'taste capsules' of "Just D" and standard A-D-C drops to compare, please fill out the enclosed form and return it to us by fax or pre-paid envelope.

And Thank You from Sunshine Vitamins!!

Exclusively distributed by UnitDrugCo

ORDER FORM
“JUST D VITAMIN DROPS”

// 1. Please contact the following pharmacy and have them stock “Just D” infant vitamin drops to be available for my patients.

Pharmacy: _____
